Senior UX / Interaction Designer | Interaction Design | Visual Design | Design Systems | Figma

Senior UX / Interaction Designer with 4.8 years of experience designing enterprise, customer-facing, and marketing digital products across web and responsive platforms. Expertise in Interaction Design, Visual Design, User Experience Design, Information Architecture, User Flows, Wireframing, Prototyping, and Usability Testing. Skilled in creating intuitive, user-centered experiences by translating business requirements into scalable design solutions through research, interaction models, and design thinking methodologies.

Design Process: Discovery → User Research → Competitor Benchmarking → Information Architecture → User Flows → Interaction Design → Wireframing → Prototyping → Usability Testing → Design Validation → Design Delivery

PROFESSIONAL EXPERIENCE

HCLTech – Senior Designer (UI/UX)

July 2025 – Present | Chennai, India

- Ensured **100% cross-device responsiveness** across **desktop, tablet, and mobile breakpoints**, improving consistency across major browsers.
- Collaborated with UX designers, developers, and QA teams across Agile sprints, delivering **3 UI improvements per release cycle**.
- Conducted **UI validation and design QA** to ensure **pixel-perfect implementation** of Figma designs before production release.
- Applied interaction design, visual design, typography, and layout composition principles to improve usability and overall user experience.
- Contributed to maintaining reusable design components and responsive design patterns, improving consistency across digital products.

HCLTech – Senior Designer (UI/UX)

July 2022 – June 2025 | Chennai, India

- Designed and delivered **20+ responsive, accessible digital experiences** across marketing and enterprise platforms by applying **interaction design, information architecture, and UX best practices**, resulting in **15% increased user engagement**.
- Led heuristic evaluations, usability testing, and evaluative research to identify usability issues and translate insights into actionable product design improvements.

- Leveraged AI-assisted design workflows alongside Figma to accelerate wireframing, refine UX copy, and iterate interactive prototypes efficiently.
- Collaborated with **Product Management, VP, Engineering**, and cross-functional stakeholders to align UX solutions with product roadmap, customer workflows, and business objectives.
- Applied **inclusive design principles and accessibility standards (WCAG 2.1)** to create experiences usable by diverse audiences, including users relying on assistive technologies.
- Optimized digital assets and UI performance, reducing **page load time from 4.5s to 2.3s (~50%)**, enhancing overall user satisfaction.
- Participated in **Agile ceremonies, design sprints, and iterative feedback cycles**, using user insights and data to inform design decisions.
- Created user journeys, task flows, and interaction models to simplify complex enterprise workflows and improve user efficiency.
- Contributed to reusable UI components and design patterns to ensure consistency across platforms and support scalable design systems.
- Conducted generative and evaluative user research including stakeholder interviews, usability testing, and behavioral analysis to inform design decisions.
- Translated complex requirements into **intuitive user flows, wireframes, and high-fidelity UI designs**, ensuring seamless cross-browser and cross-device experiences.

HCLTech – UX Designer / UI Design & Testing Associate

Nov 2021 – June 2022 | Chennai, India

- Designed and styled **15+ UI screens** for internal enterprise applications using **HTML, CSS**, ensuring usability and visual consistency.
- Assisted in **user research activities**, competitive analysis, and behavior studies to inform UX decisions.
- Created and refined **user flows, interaction models, and interface concepts** to improve navigation and overall user experience.
- Authored and executed **40+ test cases and usability checklists**, improving test coverage by **25%** and accelerating quality assurance cycles.
- Supported **accessibility compliance initiatives**, contributing to inclusive and user-centered digital experiences.
- Actively participated in **design critiques, storyboarding sessions, and brainstorming workshops** to refine interaction models and user journeys.

KEY PROJECTS

Dunhill – Luxury E-commerce Website (Salesforce Commerce Cloud)

- Implemented layouts using **SFCC Page Designer**, enabling faster content updates and reducing page build time by **~25%**.

- Identified and resolved **30+ UI inconsistencies and layout bugs**, improving visual consistency and usability across product pages.
- Contributed to improving **page responsiveness and layout stability**, reducing layout issues reported during testing by **~40%**.

LoanLogics Marketing Platform

- Designed responsive landing pages, user flows, and interaction patterns for an enterprise marketing platform, improving navigation clarity and user engagement.
- Applied **information architecture, interaction design, and usability heuristics** to improve navigation and conversion.
- Collaborated with stakeholders to translate business goals into seamless customer experiences.

BD ICX Enterprise Application

- Translated UX wireframes into **high-fidelity, accessible HTML/CSS interfaces** optimized for crossbrowser performance.
 - Conducted **usability testing and heuristic evaluations**, and design validation to improve user experience and task completion efficiency.
 - Contributed to reusable design components and design standards, supporting a scalable design system across the application.
-

SKILLS & EXPERTISE

UX & Experience Design

- Interaction Design, Information Architecture, Visual Design
- User Flows, User-Centered Design, Customer Journey Mapping
- Design Systems & Component Libraries
- Responsive Design, Grid Systems, Accessibility (WCAG 2.1)
- Wireframing & Prototyping, Design Thinking
- Typography, Layout Composition, Usability Principles

UX Research

- Usability Testing, Heuristic Evaluation
- User Interviews, Behavioral Analysis, Competitor Benchmarking
- Stakeholder Interviews, Journey Mapping, Design Validation

Design & Prototyping Tools

- Figma, Adobe XD, Photopea
- Concepts, Design QA, Design Handoff

Frontend & Collaboration

- HTML, CSS
 - Agile / Scrum, Cross-functional Collaboration, Stakeholder Management
 - Product Discovery & Design System Maintenance
-

EDUCATION

Master of Human Resource Management (HRM)

Anna University, Chennai | 2021 – 2023

Bachelor of Technology

Vel Tech Multitech, Chennai | 2017 – 2021

ADDITIONAL INFORMATION

- Languages: Tamil, English, Hindi
- Strong communicator with experience evangelizing UX processes and collaborating with global teams
- Open to relocation
