PROFESSIONAL SUMMARY

User Experience Designer with 4.8 years of experience designing enterprise and e-commerce digital products. Skilled in User Research, Wireframing, Prototyping, User Flows, Journey Mapping, Persona Development, Usability Testing, Design Systems, Accessibility (WCAG), and Responsive Design. Experienced in collaborating with stakeholders and development teams to translate user and business requirements into intuitive, accessible, and user-centered experiences.

CORE SKILLS

UX Design: User Experience Design, Interaction Design, Information Architecture, User Flows, Journey Mapping, Personas, Task Flows, Human-Centered Design

Research: User Research, Stakeholder Interviews, Requirements Gathering, Heuristic Evaluation, Usability Testing

Design: Wireframing, Interactive Prototyping, Design Systems, Accessibility (WCAG 2.1), Inclusive Design, Responsive Design

Tools: Figma, FigJam, Adobe XD, Photopea | Development: HTML, CSS, Agile/Scrum

PROFESSIONAL EXPERIENCE

HCLTech — Senior Designer (UI/UX)

July 2025 – July 2026 | Chennai, India

- Designed responsive digital experiences across desktop, tablet, and mobile, focusing on usability, accessibility, and consistency.
- Collaborated with Product Owners, Developers, QA teams, and stakeholders to gather requirements and translate them into user-centered design solutions.
- Independently contributed to interaction design, prototyping, design reviews, developer handoff, and implementation validation.
- Conducted design QA and maintained reusable components and responsive patterns to improve implementation quality and scalability.

HCLTech — Senior Designer (UI/UX)

July 2022 – June 2025 | Chennai, India

- Designed 20+ responsive enterprise and marketing experiences, increasing user engagement by 15%.
- Conducted user research, stakeholder interviews, heuristic evaluations, and usability testing to identify user needs and improve workflows.
- Created personas, journey maps, user flows, wireframes, and interactive prototypes in Figma.
- Applied Human-Centered Design, WCAG accessibility standards, and inclusive design principles to create accessible experiences.
- Collaborated with stakeholders, developers, and QA teams throughout Agile sprints to refine designs based on feedback and ensure implementation quality.

- Built reusable components, contributed to design systems, and supported team members through design reviews and UX guidance.

HCLTech — UX Designer / UI Design & Testing Associate

November 2021 – June 2022 | Chennai, India

- Designed enterprise interfaces and created user flows to improve navigation and task completion.
- Supported user research, competitive analysis, requirements gathering, and interaction design activities.
- Conducted usability validation and UI testing, increasing test coverage by 25%.
- Collaborated with clients, business stakeholders, developers, and QA teams to translate requirements into user-centered solutions.

KEY PROJECTS

Dr Pepper — Bundle Builder & Cross-Sell Experience

- Designed the end-to-end experience from user research and ideation through wireframes, interactive prototypes, usability validation, and developer handoff.
- Created personas, journey maps, user flows, and prototypes to simplify bundle customization and improve accessory discoverability.
- Collaborated with stakeholders to translate business and user requirements into intuitive design solutions.

Dunhill — Luxury E-commerce Website

- Designed responsive e-commerce experiences and reusable layouts across desktop, tablet, and mobile.
- Collaborated with developers to resolve UI inconsistencies and ensure accurate design implementation.

LoanLogics — Marketing Platform

- Designed responsive landing pages and optimized customer journeys using Information Architecture and usability principles.
- Partnered with stakeholders to translate requirements into intuitive user experiences.

BD ICX — Enterprise Application

- Designed accessible interfaces and conducted usability testing, heuristic evaluation, and design validation to improve task completion.
- Contributed reusable components and standards to support a scalable design system.

EDUCATION

Master of Human Resource Management (HRM) — Anna University, Chennai | 2021–2023

Bachelor of Technology — Vel Tech Multitech, Chennai | 2017–2021
