UI/UX Designer | Product Designer | Figma Specialist | 4.8 Years Experience

UI/UX Designer with **4.8 years of experience** designing enterprise and e-commerce digital products. Skilled in **Figma, User Research, Wireframing, Prototyping, User Flows, Journey Mapping, Persona Creation, Design Systems, Accessibility (WCAG), Responsive Design, HTML/CSS**, and Agile methodologies. Experienced collaborating with Product Managers, Business Analysts, Developers, QA teams, and stakeholders to deliver intuitive, user-centered digital experiences. Passionate about solving complex usability challenges through research-driven design and iterative prototyping.

Core Skills

UX Design: User Experience Design, Interaction Design, Information Architecture, User Flows, Journey Mapping, Persona Development, Task Flows, Design Thinking, Human Centered Design

Research: User Research, Stakeholder Interviews, Heuristic Evaluation, Usability Testing

Design: Wireframing (Low Fidelity Wireframes, High Fidelity Mockups), Prototyping, Design Systems, Accessibility (WCAG 2.1), Responsive Design

Tools: Figma (Auto Layout, Components, Variants, Interactive Prototypes, Dev Mode), FigJam, Adobe XD, Photopea

Development: HTML, CSS, Agile/Scrum, Stakeholder Management

PROFESSIONAL EXPERIENCE

HCLTech – Senior Designer (UI/UX)

July 2025 – July 2026 | Chennai, India

- Designed responsive digital experiences across desktop, tablet, and mobile platforms, ensuring consistent usability across browsers.
- Collaborated with UX Designers, Product Owners, Developers, and QA teams during Agile sprints to deliver user-centered solutions.
- Conducted design QA and UI validation to ensure pixel-perfect implementation of Figma designs.
- Maintained reusable design components and responsive patterns to improve consistency and scalability.
- Applied interaction design, typography, and visual hierarchy principles to improve usability and accessibility.

HCLTech – Senior Designer (UI/UX)

July 2022 – June 2025 | Chennai, India

- Designed 20+ responsive enterprise and marketing experiences, increasing user engagement by 15%.
- Conducted user research, stakeholder interviews, heuristic evaluations, and usability testing to identify usability issues and improve user workflows.
- Created user flows, journey maps, wireframes, interactive prototypes, and high-fidelity UI designs using Figma.
- Applied Human-Centered Design principles and WCAG accessibility standards to create inclusive digital experiences.
- Reduced page load time from 4.5s to 2.3s through UI optimization and asset improvements.
- Built reusable UI components and contributed to scalable design systems.
- Participated in Agile ceremonies, design reviews, and iterative design improvements.

HCLTech – UX Designer / UI Design & Testing Associate

Nov 2021 – June 2022 | Chennai, India

- Designed enterprise application interfaces using HTML and CSS.
- Assisted with user research, competitive analysis, and interaction design activities.
- Developed user flows and interface concepts to improve navigation.
- Created and executed usability validation and UI testing, increasing test coverage by 25%.
- Supported accessibility initiatives and collaborated with cross-functional teams throughout the development lifecycle.
- Facilitated client requirement discussions and collaborated with business stakeholders to translate requirements into user-centered design solutions.

KEY PROJECTS

Dr Pepper – Bundle Builder & Cross Sell-Experience

- Designed an end-to-end bundle builder experience from user research and ideation through wireframes, interactive prototypes, usability validation, and developer handoff.
- Created user flows, wireframes, low-fidelity wireframes, high-fidelity interactive prototypes in Figma to simplify the bundle customization journey.
- Developed user personas, journey maps, and user flows to improve design decisions.
- Enhanced accessory discoverability through contextual cross-sell recommendations, creating a more intuitive purchasing experience and supporting business cross-sell objectives.
- Assisted junior designers and collaborated during design reviews to maintain consistency and quality.
- Facilitated client requirement discussions and collaborated with business stakeholders to translate requirements into user-centered design solutions.

Dunhill – Luxury E-commerce Website (Salesforce Commerce Cloud)

- Designed responsive commerce experiences using SFCC Page Designer.
- Improved content authoring efficiency by creating reusable page layouts.

- Resolved UI inconsistencies and improved responsive behavior across multiple devices.
- Worked closely with developers to ensure accurate implementation.

LoanLogics Marketing Platform

- Designed responsive landing pages and optimized customer journeys.
- Applied Information Architecture and usability principles to improve navigation and engagement.
- Partnered with business stakeholders to translate requirements into intuitive user experiences.

BD ICX Enterprise Application

- Translated UX wireframes into high-fidelity, accessible HTML/CSS interfaces optimized for crossbrowser performance.
 - Conducted usability testing and heuristic evaluations, and design validation to improve user experience and task completion efficiency.
 - Contributed to reusable design components and design standards, supporting a scalable design system across the application.
-

EDUCATION

Master of Human Resource Management (HRM)

Anna University, Chennai | 2021 – 2023

Bachelor of Technology

Vel Tech Multitech, Chennai | 2017 – 2021

LANGUAGES

English • Tamil • Hindi
